

A sample of interactions between teacher and me.

*"Hi (teacher),*

*I checked with (student) today and we talked about her work in Math. According to her, she is doing her work in Math better than before and feels positive about her interactions with you.*

*Could you please share your perception of her work now?*

*Thanks,*

*Dhara"*

*Teacher replied:*

*"She changes almost on a daily basis. She told me she didn't like me again last week, then worked well with me this Monday. Tuesday she worked on a test pretty well by herself.*

*Yesterday she worked pretty well in a group. Today she refused to do anything and was rude/ disruptive about 1/4 of the time."*

*I replied:*

*" Thanks for your update (teacher). Glad to know she is putting efforts and doing work. I think she is trying to be better and misses out sometimes. We will keep working with her. Thanks!"*
